

The Cost of Chronic Disease: Challenges, Opportunities, and Outcomes

Save the Date!

May 18, 2011 | Grappone Center, Concord

The Cost of Chronic Disease: Challenges, Opportunities, and Outcomes returns as the second Chronic Disease conference focusing on prevention, intervention, and changes to the healthcare landscape. Learning objectives include:

- Identify potential opportunities for policy and practice change through Health Care Reform
- Define risk factors common to chronic disease
- Integrate strategies based on best practice guidelines to reduce the impact of chronic disease morbidity and promote optimal health
- Align professional networks to better prevent and manage chronic disease
