

SOUTHERN NH AHEC

The Science of Health Camp 2021

An exploration of the science behind health for rising freshmen, sophomores, juniors, and seniors living in New Hampshire

Tuesday and Thursday
10:30-12:30 via Zoom
July 13*, 15, 20, 22, 27, 29*

Click [here](#) to register!

Join us for a summer filled with fun at home and online science experiments and activities!

For more information, please contact Nitanga Jean De Dieu at nitanga@snhahec.org or by calling 603-244-7360

*The first and last session of the camp may be in person in Manchester!

Your participation may be able to earn you ELO school credit!

Join us for one or all sessions!

Join us in exploring topics in chemistry physics, and biology!

Week One

Tune in to learn about chemical reactions and learn how to make your own slime!

Week Two

See how the body works by building your own model of a lung and hand!

Week Three

Join us to learn about physical health and make your own ice cream on the last day!

All materials are provided!
